A Single Source Solution Provider for All Your Security Needs

Comprehensive security solutions are more than having a firewall in place and a locked front door. The heartbeat of your business is your customer data and financial exposure, and every day we see front page headlines for data breaches, even at Fortune 500 enterprises. Small businesses are attacked daily as well, and often the damages are so devastating that they never recover, both in terms of financial losses and reputation.

We recognize that security is also more than technology… it is about the technical solutions, processes to evaluate and react to potential threats, vulnerabilities, and impacts, plus user training and education.

Cybercrime damages are estimated to globally cost $6 trillion annually by 2021, and ransomware damage costs are predicted to be 57x higher in 2021, reaching $20 billion, compared to 2015

Caminar Technologies partners with industry leaders to implement secure protection for everything from your data and brand to your property and network.

KEY SECURITY SERVICES

- ✓ Penetration Testing & Environment Audits
- ✓ Full Security Operations Center (SOC) as a Service
- ✓ Physical security protection (IP cameras / door entry / video)
- ✓ Web and Application Firewall Management
- ✓ DDoS Mitigation
- ✓ SIEM Platforms & Reporting & Monitoring
- ✓ Virus, Malware, Spyware, Email Scanning
- ✓ Compliancy Attestations
- ✓ IDS/IPS Management
- ✓ Endpoint & Device Security Management
- ✓ Virtual CISO
- ✓ Disaster Recovery and Backups
- ✓ Data Loss Prevention (DLP)
- ✓ East/West Traffic Monitoring & Breach Protection
- ✓ Behavioral Management / Staff Training & Awareness
- ✓ Professional Services Security Consulting

LAYERS OF SECURITY

Cyber security and physical security is not just about technology. While technology plays a substantial role, alone it is not enough to protect you from modern vector attacks.

Caminar Technologies follows the ISO 27001 standard that recommends every comprehensive security solution address all areas of information security risk including people, process & technology.

By following this standard, we are confident we can help protect your mission critical assets, and bring the solutions required to protect, monitor, and respond to attacks from all vectors – protecting more than just your data and your network, but also your brand and reputation.

OUTSIDE THREAT PROTECTION

PERIMETER SECURITY	NETWORK SECURITY	ENDPOINT SECURITY	APPLICATION SECURITY	DATA SECURITY
Perimeter Firewall	Enclave/DataCenter Firewall	Desktop Firewall	Static App Testing/ Code Review	PKI
Perimeter IDS/IPS	Enterprise IDS/IPS	Host IDS/IPS	Dynamic App Testing	DAR/DIM/DIU Protection
Secure DMZs	VoIP Protection	Content Security (anti-virus/malware)	WAF	Data Wiping Clansing
Message Security (anti-virus/malware)	Inline Patching	Endpoint Security Enforcement	Database Monitoring/ Scanning	Identity & Access Management
Honeypot	Web Proxy	FDCC Complicance	Database Secure Gateway (Shield)	Enterprise Right Management
DLP	Content Filtering	Patch Management		Data Classification
DHS Einstein	NAC	DLP		Data Integrity Monitoring
	Enterprise Message Security/ Wireless Security/ Remote Access			Data/Drive Encryption
	DLP			DLP

MISSION CRITICAL ASSETS

PREVENTION

IT Security Governance
Security Policies & Compliance
Security Architecture & Design
Continuous C&A
Cyper Threat Intelligence
Threat Modeling
Risk Management
Security Awareness & Training
Penetration Testing
Vulnerability Assessment

MONITORING & RESPONSE

Continous Monitoring and Assessment Situational Awareness
Focused Ops
Esclation Management
Digital Forensics
SIEM
SOC/NOC Monitoring (24x7)
Incident Reporting, Detection, Responce (CIRT)
Security Dashboard
Security SLA/SLO Reporting

PEOPLE + PROCESS + TECHNOLOGY

PEOPLE	PROCESS	TECHNOLOGY
Staff Training & Awareness	Management Systems	You can't deploy technology without competent people, support processes or an overall plan.
Professional Skills & Qualifications	Governance Frameworks	
Competent Resources	Best Practices	
	IT Audit	

ABOUT US

Caminar Technologies Inc. designs and delivers IT & communications solutions and services that help organizations execute on their strategic goals.

Our focus? Every business is unique, so we start with listening to the needs of our clients, and then exceed those needs in every way.

Contact us today to learn more about what security services are right for your business.

WHY WORK WITH US?

✓ Objective & vendor agnostic to evaluate multiple security options
✓ Will learn your business structure and goals
✓ Will understand your IT infrastructure and vulnerabilities
✓ Will determine the optimal comprehensive security solution
✓ Will manage the implementation and support of the selected solution
✓ After implementation support including customer service and escalations
✓ Be integrated as part of your organization's ecosystem
